

Pickup Truck Solutions

Pickup Truck Products

*Simple to Operate.
Rugged Durability.
Complete Solutions.*

Curb-Sider® (VSL-6000)

The exterior version of the world's most popular vehicle lift gives you unsurpassed versatility for loading and unloading mobility devices at the rear of the truck bed!

The *Curb-Sider* allows you to avoid the tailgate by lifting from the curb-side. With 400 lb/181 kg of lifting capacity, the *Curb-Sider* can handle nearly any scooter or power wheelchair with ease.

- Standard tough texture coating, along with an exterior pendant package protects your *Curb-Sider* from the elements
- The fold-down lift head means added driver visibility and increased available cargo space when the lift is not in use
- Direct Gear Drive Technology (no chains to slip or loosen) means virtually maintenance-free operation

Turny™ (TAS 2570/2570E)

A marvelous Turning Automotive Seating™ (TAS™) product that rotates out of the cab and lowers to the desired height!

With the *Turny* you can easily operate the *Out-Rider* lift (see next page) to load and unload a wheelchair, scooter or power wheelchair from outside the cab, then smoothly power the seat up and into your pickup.

- Seat lowers to transfer height for mobility device users
- Driver and passenger side applications available

Shown with *Out-Rider* Lift

Stow-Away™ (TAS-1850)

A fully powered, compact transfer seat for pickups and large SUVs that is mounted outside the vehicle!

- Original factory seats retain all their manual and powered functions, No obstructions in the cab or seating compartment
- A sealed container, normally affixed to running board mounts holds the *Stow-Away*
- By simply pushing a single button, a drawer opens and the seat rises to the designed transfer height, then up to the vehicle seat height.
- Driver and passenger side applications available

Out-Sider[®] Meridian[™] (ASL-250)

Transport your scooter or power wheelchair outside your pickup truck!

Lightweight, yet tough as nails, The *Out-Sider Meridian* will allow you to take your mobility device wherever you go, quickly and easily!

- Easy, one button operation
- Texture coated platform for increased traction & durability
- Drive on/off either side of platform
- Optional *Swing-Away[™]* allows easy access to tailgate

Out-Rider[®] (PUL-1100)

Lift and store your wheelchair, scooter or power wheelchair in the bed of your pickup truck while sitting up front!

The *Out-Rider* is fully automatic and easy to operate, with a hand-held pendant. It can lift a folding/rigid wheelchair, scooter or power wheelchair weighing up to 350 lb/159 kg!

Bruno also offers the *Turny*, a rotating/lowering seat to assist individuals who have difficulty transferring in and out of higher vehicles. (shown above)

Shown with optional footrest

- Stows your mobility device in the bed of your truck
- Conveniently delivers your mobility device next to the front seat
- Designed to withstand the rigors of outdoor use
- Driver and passenger side applications available

Innovation... for your Independence & Convenience.
