# MAXIMIZING ACCESSIBILITY

INTRODUCING THE ACCESS MAX BROUGHT TO YOU BY FENTON MOBILITY.

This vehicle includes the Patented **Shift-N-Step**, which is the first ever state-of-the-art ADA compliant vehicle system to allow **TOTAL ACCESS FOR ALL**.

The Shift-N-Step creates a truly "Cross-Over" vehicle allowing curbside service for everyone, anytime, anywhere. One door with one system will now allow both wheelchair and ambulatory passengers in the vehicle. With the Shift-N-Step dual entry system, you no longer need to have your vehicle structurally modified at either the front door position or the side door location to provide ambulatory access.

Due to the van not being structurally modified, you minimize service and warranty issues minimizing the cost of ownership overall.

Find out more about Shift-N-Step
