CLEAR ENTRY

Power Door System by Fenton Mobility

FEATURES

- Operate the side sliding door from multiple locations; Capacitive Sliding Door Button, OEM Key Fob, or the Operator Touchscreen
- Fully open or close the sliding door within 5 seconds
- Driven by a heavy duty aircraft grade stainless steel cable with 480lbs of break force
- Sleep mode activated after 15 minutes of inactivity to prevent vehicle battery drainage
- Over-the-air updates for patches, firmware updates, and software fixes
- Built in Diagnostic Troubleshooting Codes (DTC)
- American designed, manufactured, and tested at our facility in Randolph, NY
